HOW WE ARE USING MACHINE LEARNING

AARON MIMICKING HAROLD COHEN STYLE.

NSYNTH MAKES NEW SOUNDS FROM EXISTING.

MACHINES WITH AURA OF MYSTERY

The screenshot displays two separate Facebook Messenger conversations side-by-side.

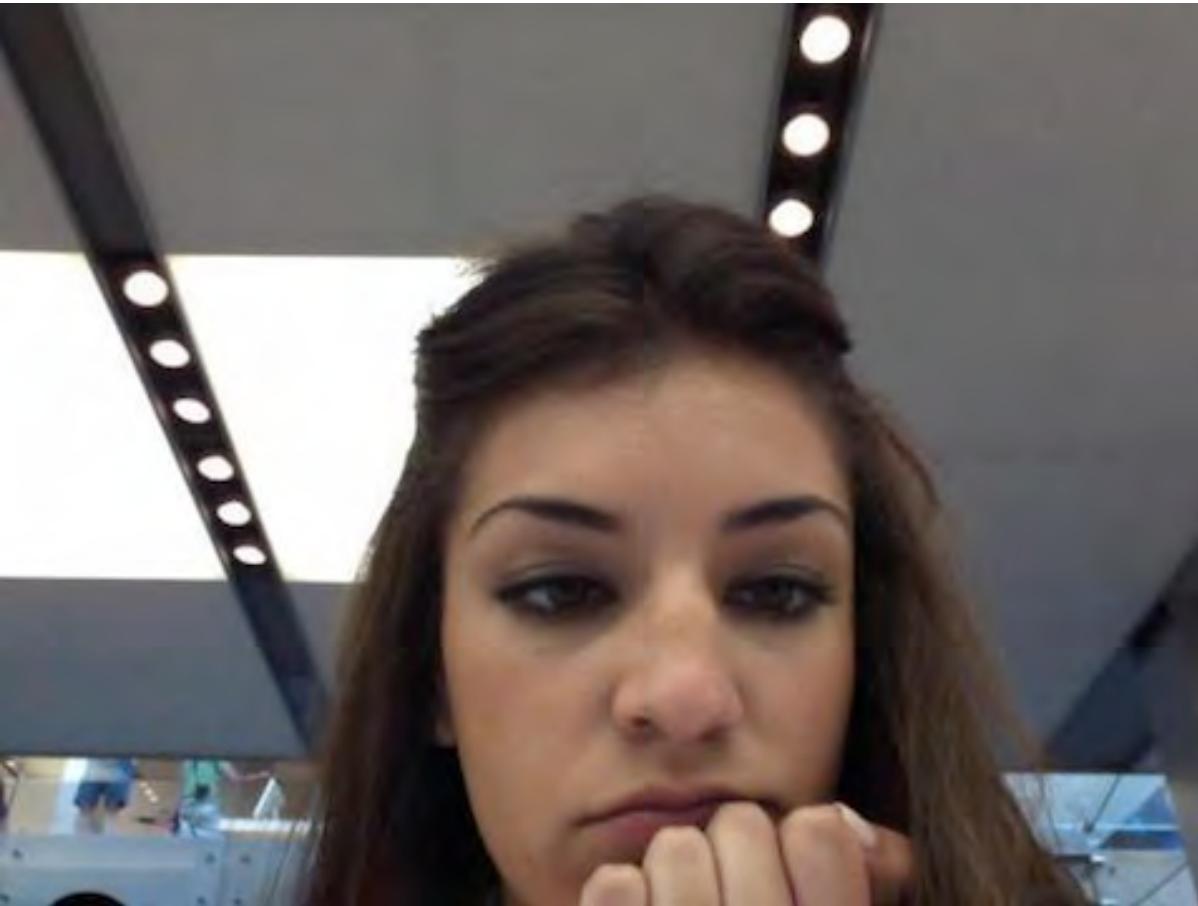

GrowthBot Conversation:

- Profile:** GrowthBot (Software)
- Time:** 6:35AM
- Message:** Hi Allen. My name is GrowthBot. For ideas on what I can do, type: give me a hint
- Options Panel:** Includes "Search in Conversation", "Manage Messages", "Leave Feedback", and "Mute Notifications".
- Facebook Page:** <https://facebook.com/growthbot/>
- Buttons:** "give me a hint" and "random example"
- Bottom Row:** Message input field with placeholder "Type a message..." and a row of message input icons (document, emoji, GIF, smiley face, microphone, camera, thumbs up).

HealthTap Conversation:

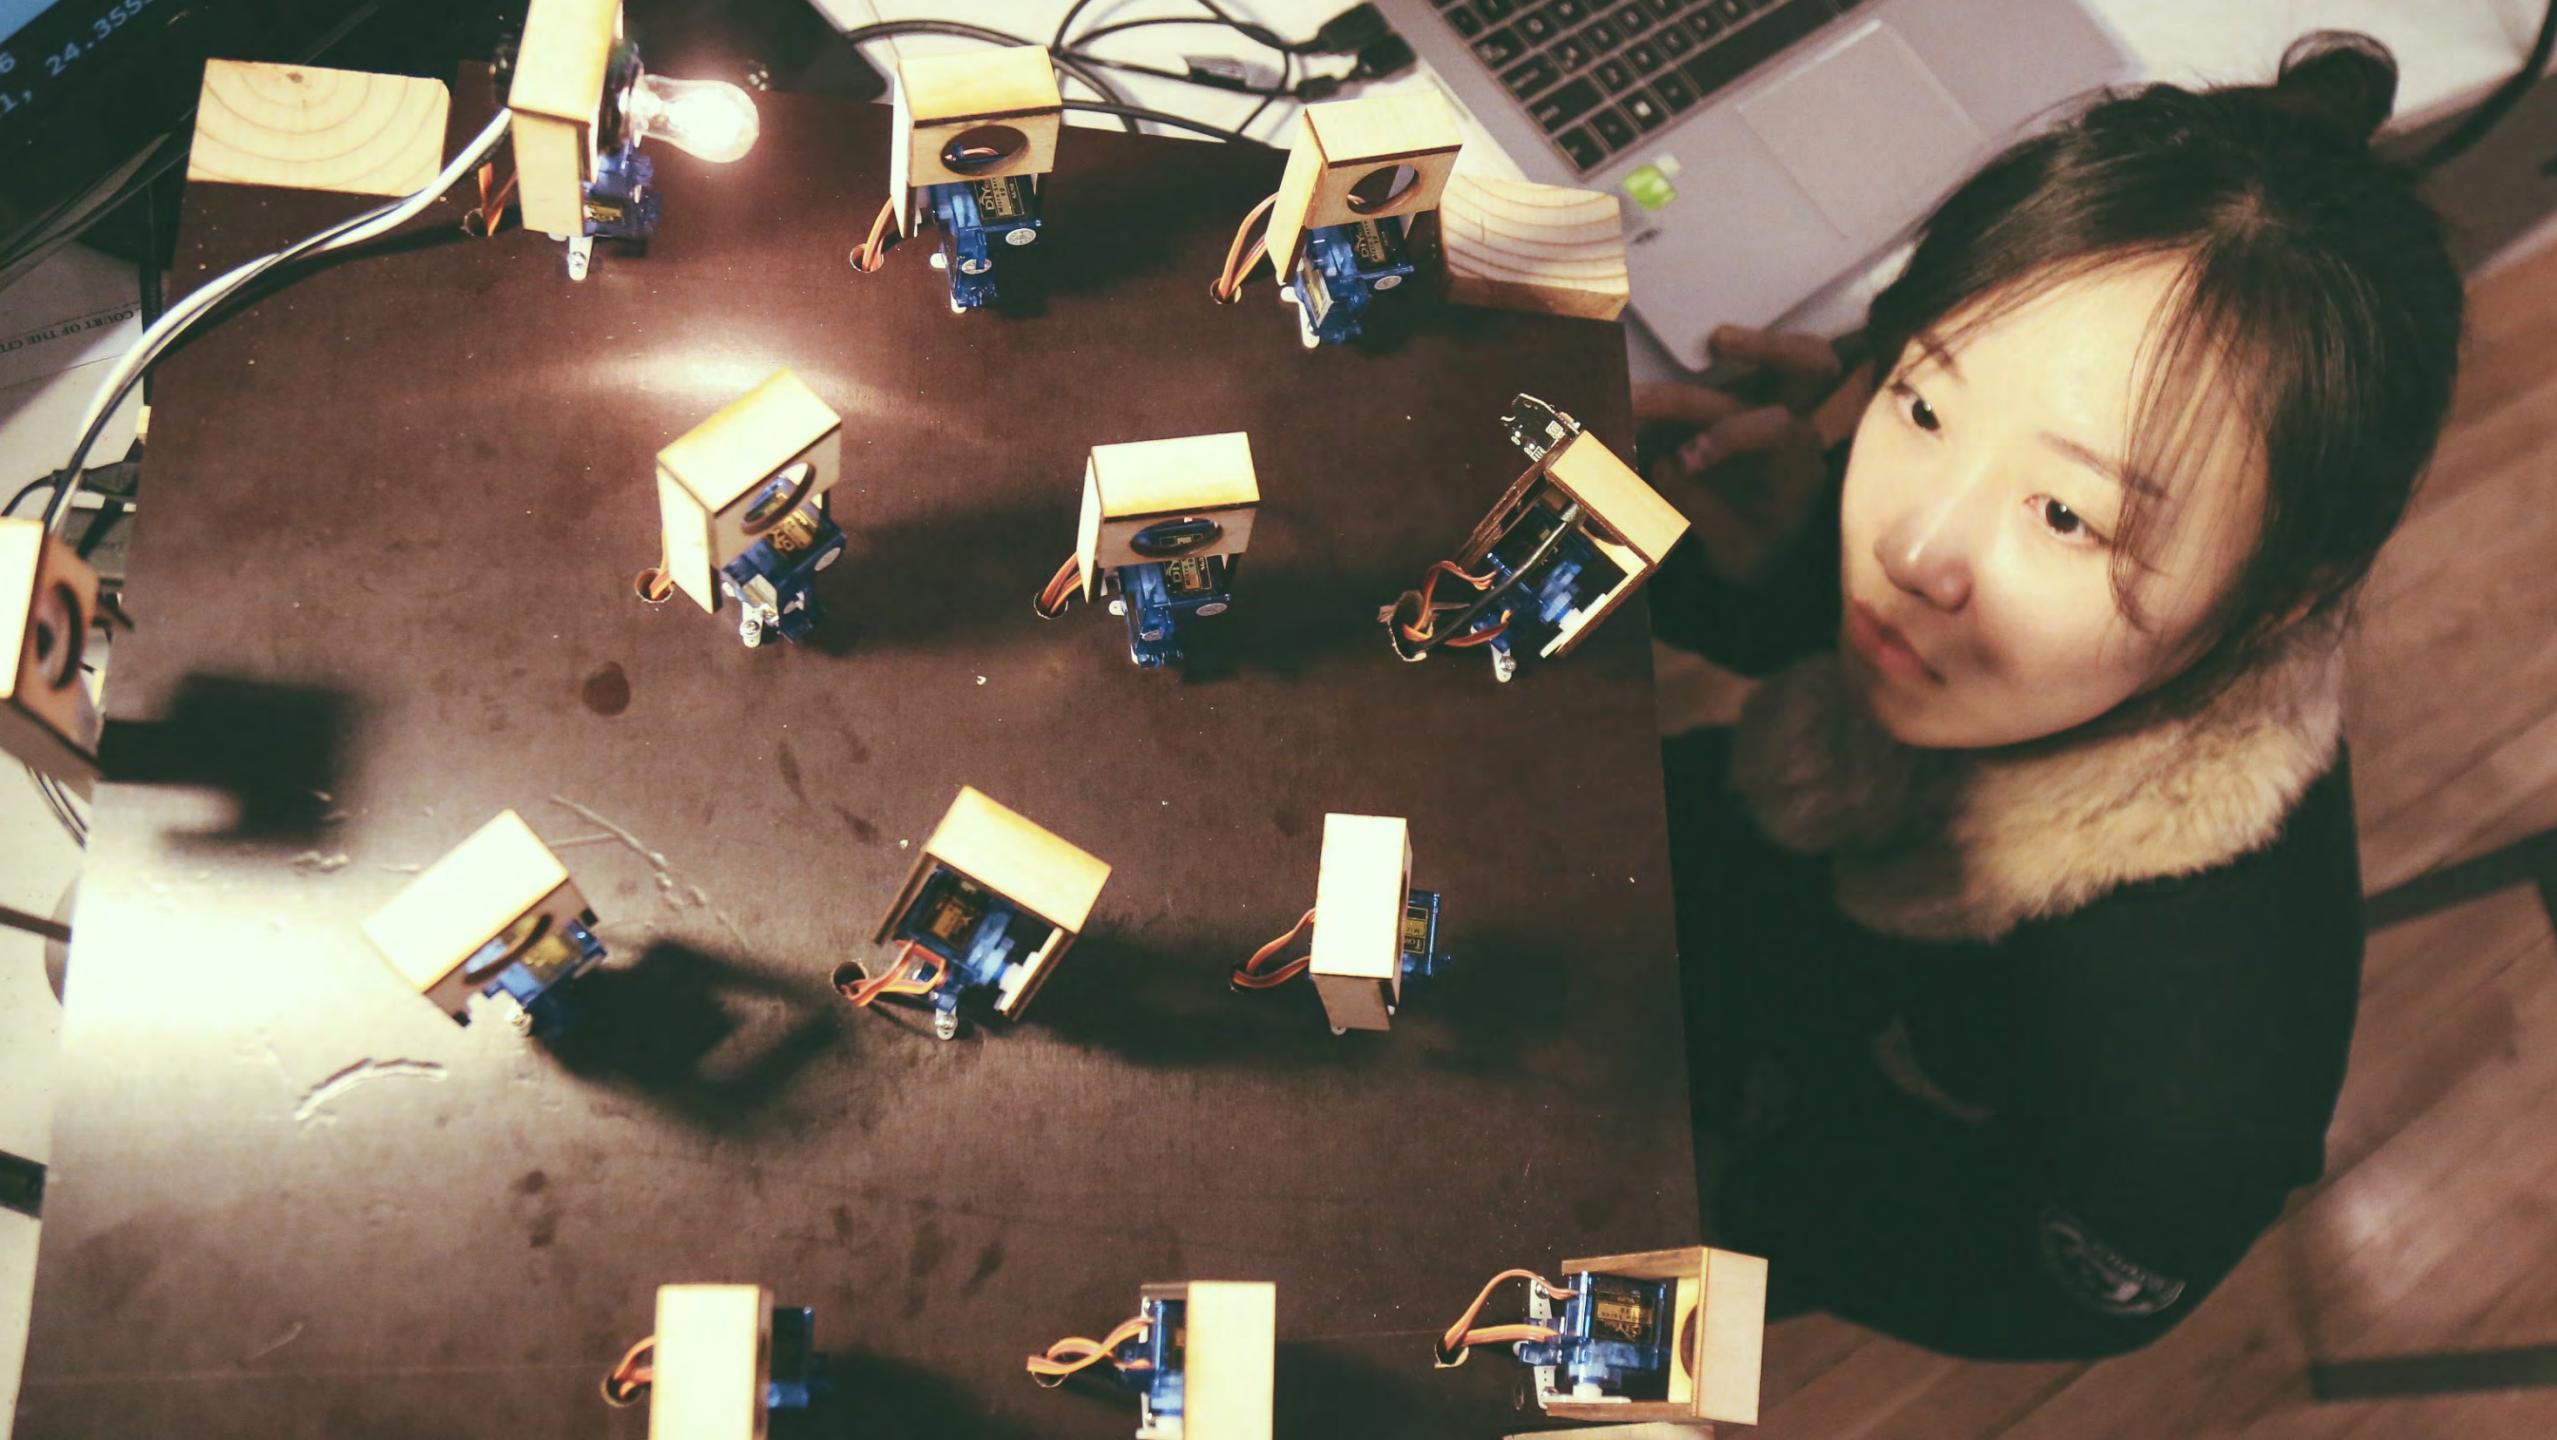

- Profile:** HealthTap (Internet Company)
- Time:** 2:41PM
- Message:** Hi there, ask a brief health question and our doctors will respond with helpful, educational answers. Your questions and identity are kept anonymous, confidential, and will not be shared.
- Options Panel:** Includes "Search in Conversation", "Mute Notifications", and "Facebook Page" link (<https://facebook.com/HealthTap/>).
- Bottom Row:** Message input field with placeholder "Type a message..." and a row of message input icons (document, emoji, GIF, smiley face, microphone, camera, thumbs up).

MACHINES WITH UNEXPECTED LEARNED BEHAVIOR

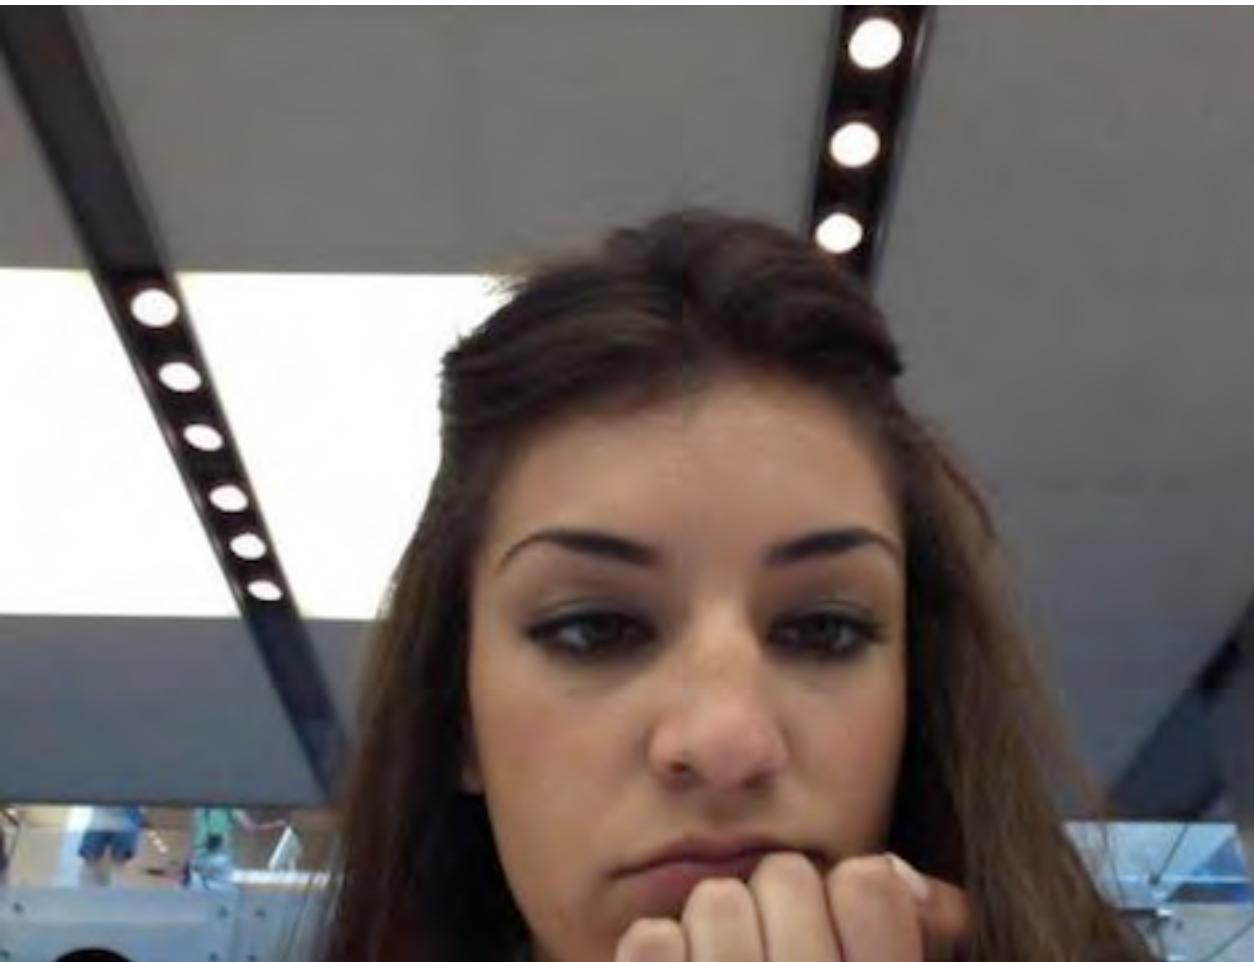

I'm not sure I understand you
fully.

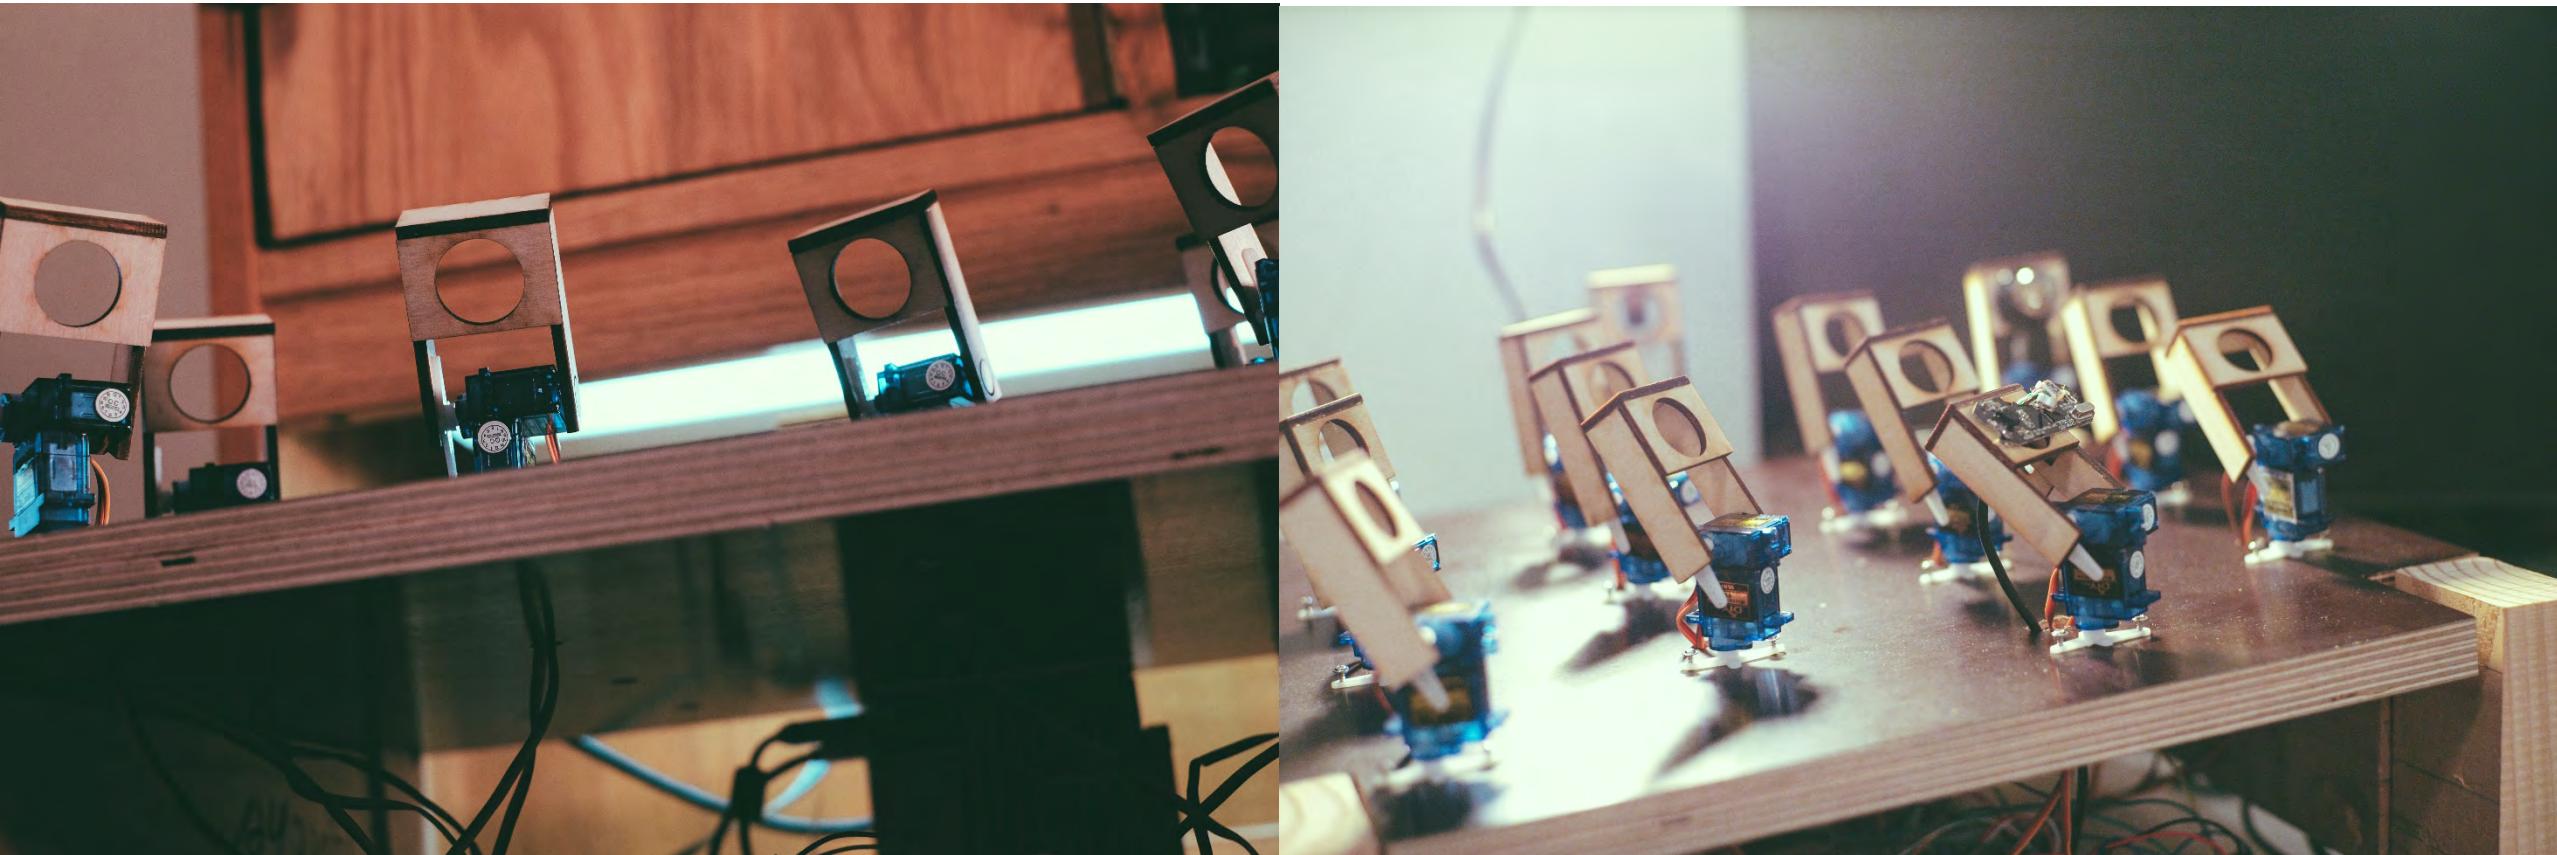

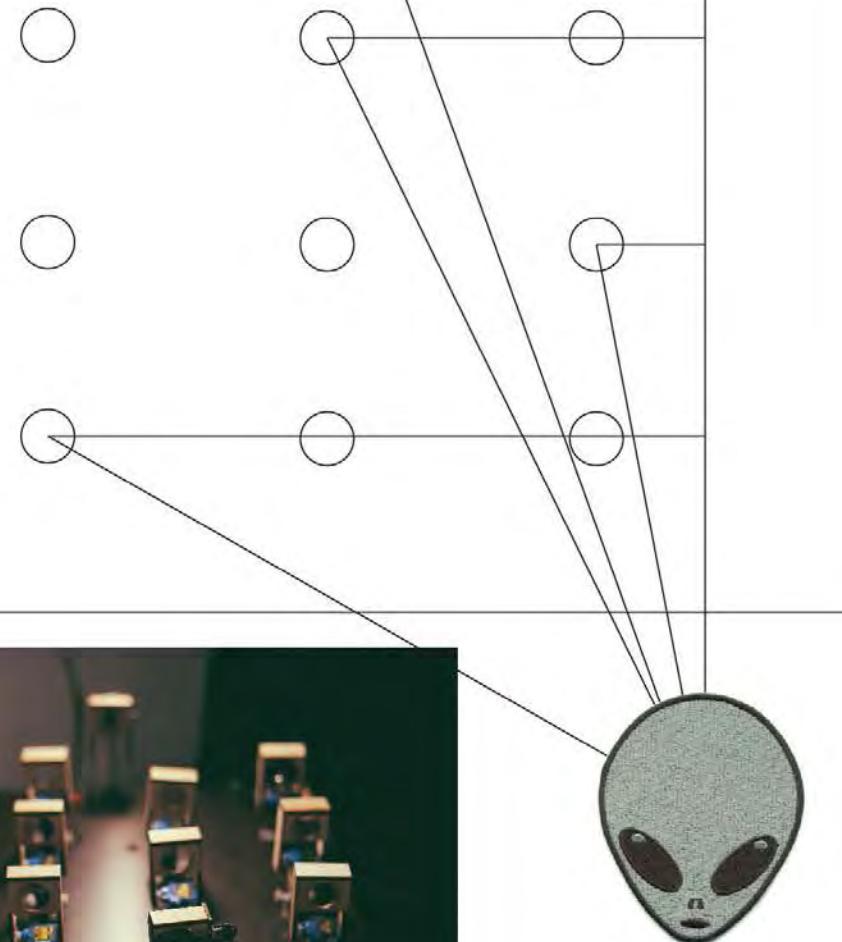

WE STARE AT MACHINES ALL THE TIME

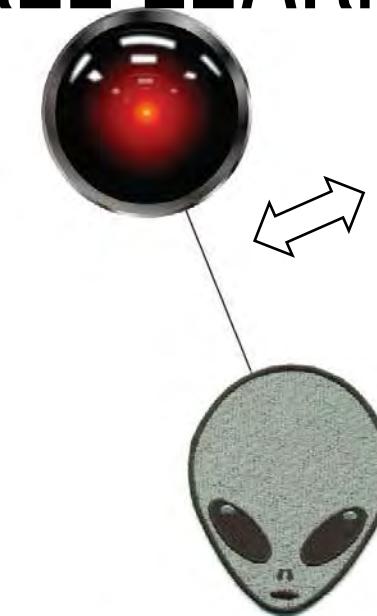

WHAT ABOUT MACHINES STARING AT US?

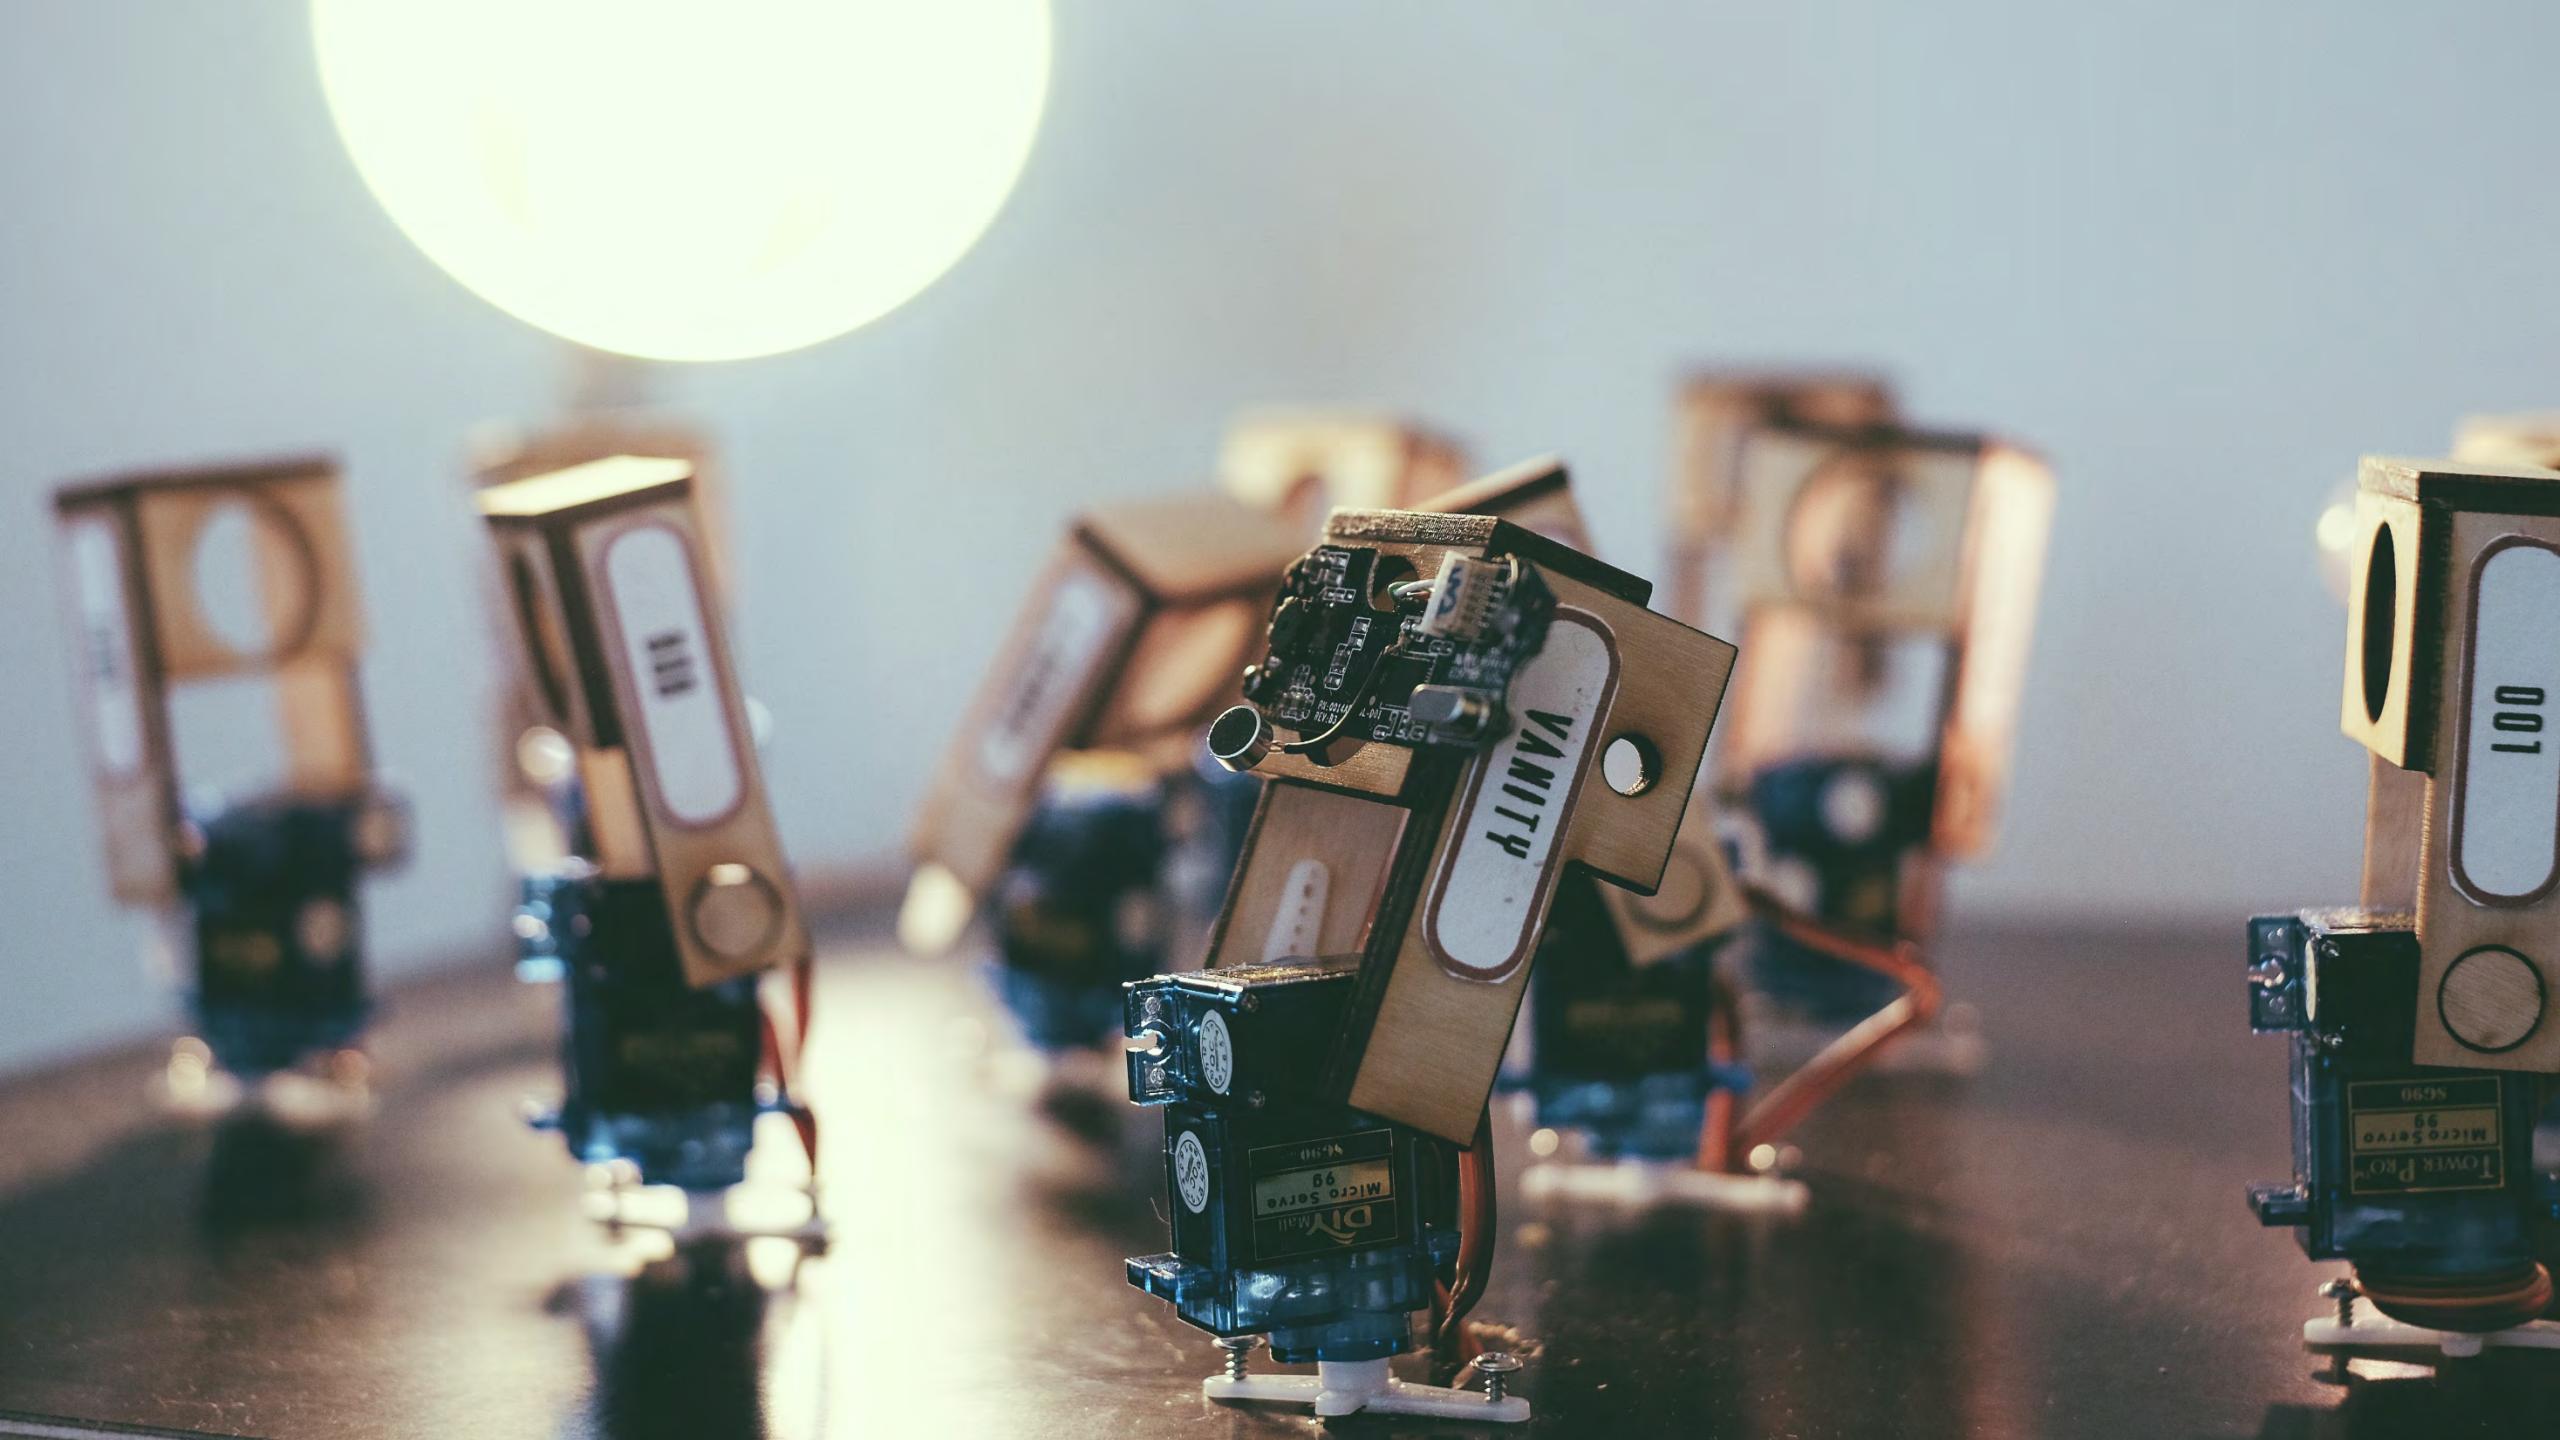

MODEL BASED LEARNING

MODEL FREE LEARNING
